

Real Time Tracking

Track people, vehicles and assets in real-time. Monitor the location, speed and direction of your tracker. **ezfinder** helps you gather the data you need to protect your loved ones, manage your business and make informed decision.

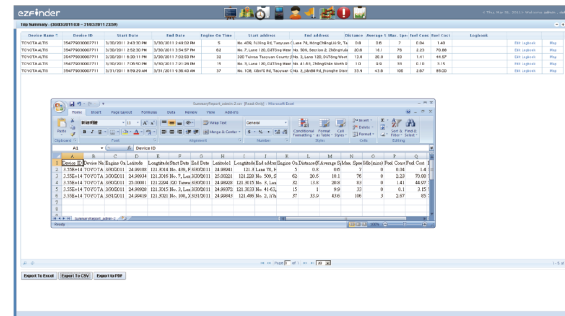

Route History

See where your trackers have been using **ezfinder** history feature. Just select a time range!

Geofences

ezfinder create circular or polygonal geofences. Be alerted when your tracker enters or exits a geofence.

Different Report Types

See where your trackers have been using **ezfinder** history feature. Just select a time range!
